## Executive Summary

More than 35 years of experience of inland and overseas trade we are dealing in Perishable, Semi/ Non-perishable products and Natural minerals. In addition to that we are also providing consultancy services in corporate sector. **Alpha Organic (Pvt.) Limited**, is a multi-disciplinary company- Incorporated with Security of Exchange Commission of Pakistan (Corporate Universal Identification No, 0105065) providing services since 1984 in the corporate sector, based on four diversified Principal activities

We are based in Islamabad, "the Capital" and Bahawalnagar, "the Hub of Rice Growing Area" of the Country. We have the capability to deliver large volumes with in stipulated time schedules. The company has a well-equipped Quality assurance department supervised by a team of experienced professionals- as we are also consultant in corporate sector for implementation of ISO 9001:2015, (quality management system), ISO 14000, (Environmental management), ISO OHSAS 18001 (Occupational Health & Safety Management Systems) and FSSC 22000 (HACCP: Hazard analysis and critical control points certified organization ; and ISO 28000: (Specifications for security management systems in the supply chain).

We pay paramount emphasis on quality of the products. Our quality control analysts monitor the entire production process. We have a rich vendor base which allows catering to bulk orders. Our professionals have in-depth knowledge of the auditing procedures and inspect the final consignment in-depth before shipment.

We have a well-equipped, spacious, neat and clean warehouses. We also have a packaging unit to ensure quality of Product. Maximizing innovation while maintaining quality and timelines is the guiding principle that enables the Alpha Organic (Pvt.) Limited- team of 38 certified dedicated professionals who work closely along with the working facility to assure quality.

Himalayan rock salt, has a distinct pinkish tint, and is mined from the Punjab region of Pakistan, in Khewra & kalabagh. Pakistani salt mines are the second largest in the world and Himalayan salt is considered far purer than other varieties. From cooking to spa treatments, rock salt is claimed to have several health benefits.

Several salt products, supplied as per the buyer's specifications, include:

Edible salt for cooking

Salt tiles and serving plates for food presentation

Products related to spa treatment, aroma therapy and bath salts

Decorative lamps

Licking salt for animals

Industrial salt

Ice melt lowers the freezing point of water, which keeps ice from forming and turns ice into slush. This prevents ice buildup and makes ice easier to clean. Ice melt can be applied before it snows or after ice has already formed. Many businesses and places will put deicer on their sidewalks and in parking areas before a drop in temperature or snowfall is forecasted. This allows cleanup to be quick and avoids any potential slips or stuck vehicles. We offer two products for our ice melts, which provide a proprietary formula that creates Earth, kid, and pet-friendly products. This formula is also safer for concrete, brick pavers, and landscaping, significantly reducing corrosion of metals common when using straight rock salt or calcium chloride. Our ice melts are granulated to optimize melting power resulting in less wasted material and lost time. Both our ice melt and rock salt are available by the pallet from Advantage Water Conditioning or by the truckload from Advantage Salt Supply.

This Plain Box Packing option is for those customer who wants to pack the slabs in their home country , their motive isonly to bring the product safely , secondly this option is also for low quantity customer

## PRINTED INNER CARTON BOX PACKING

This packing option is available Big customer like stores and customers who sell online such as Amazon or Any Other Platform. This is a premiu, product soltuion for Premium Customers.

**Oil Refinery grade salt ,Rock Salt for Meraux units for sweetening of Jet fuel**  
**Over the past decade** the use of expandable concentric under reamers or "whole openers" in Deep water drilling has become widespread. An estimated 75% of the salt/sub Salt sections in the Go now use under reamers. There are various reasons to Enlarge a hole, including enhancing equivalent circulating density, to reduce Cementing pressures, and to counter salt creep so casing will reach bottom.

Under reamers are especially important in deep water wells that require Numerous casing strings

**RSC : 02**

**Deicing salt / Road salt 2 – 10 mm High purity salt**  
 When applied to snow or ice, salt lowers the melting point of the Mixture. Thus, large amounts are used in Northern climates to rid streets of Accumulated snow and ice

**RSC : 03**

**Salt for water softening Water softener salt**  
 pure salt and a typical of 99.8% sodium chloride, virtually 100% water soluble , helps eliminate brine tank clean out necessitated by Insoluble material

**RSC : 04**

**Salt for Brine Solutions**  
 greatest single use for salt is as a feedstock for the Production of chemicals, the color-alkali industry uses salt primarily as salt in Brine from captive brine wells to produce chlorine and caustic soda
